

28 January 2019

Dear Parents/Guardian,

Enhanced School Measures For Novel Coronavirus

As school re-opens on 29 Jan 2020, we will be enhancing precautionary measures in view of the novel coronavirus situation. These include daily temperature taking and Leave of Absence for students and staff with a travel history to China. More details are in the attachment.

Let us all play our part in keeping good personal hygiene and taking social responsibility. There may be some inconveniences as preventive steps are taken, but together we can keep our children safe while minimising disruption to learning.

Yours Sincerely

Zainal Abidin Mahmood
Vice-Principal (Admin) / Chief Safety Officer
Serangoon Garden Sec

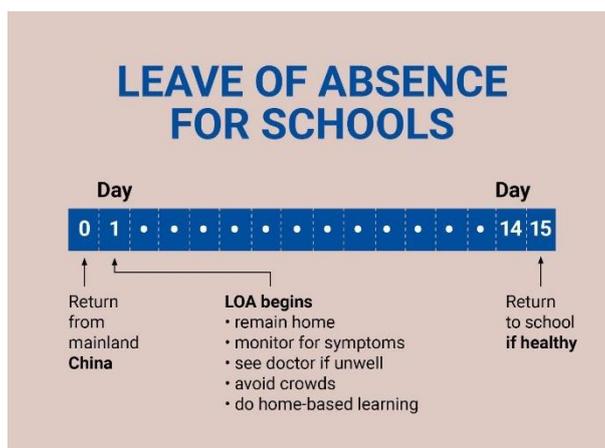

Attachment

As school re-opens on 29 Jan 2020, we will be enhancing precautionary measures, including daily temperature taking, to ensure that our schools remain a safe and healthy learning environment.

Please ensure your child brings an Oral Digital Thermometer to school from 29 Jan onwards.

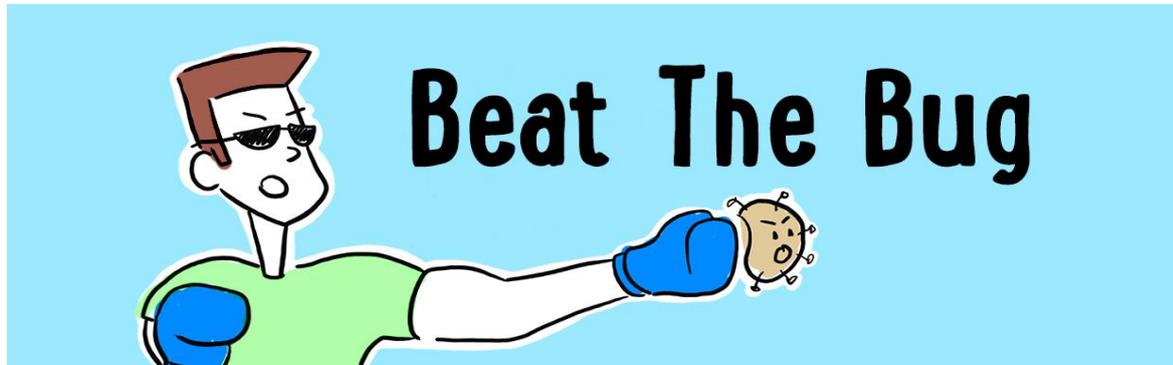

While teachers actively look out for students' well-being, please ensure your child practises good personal hygiene and social responsibility. You should take your child to the doctor if he/she is unwell and we would appreciate it that you keep your child at home until he/she recovers.

If your child has returned from mainland China on 15 Jan or later, he/she will be placed on Leave of Absence (LOA) for a period of **14 days**, starting from the first day after return. For example, if your child returns to Singapore on 28 Jan (Tue), the LOA would last from 29 Jan to 11 Feb, with the date of return to school being 12 Feb (Wed).

Students on LOA will be supported by home-based learning assigned by the school. If you have any queries on LOA, you can call the school office at 62889227.

For updates on the coronavirus situation, you can visit moh.gov.sg or sign up at go.gov.sg/whatsapp to receive the latest information via Whatsapp. We will keep you updated on school measures and education related notifications.

DOs

Cover your nose and mouth when you sneeze

Wash your hands with soap frequently

Wear a mask if you have a cough or runny nose

See a doctor if you feel unwell

DONTs

Go near live animals, including poultry & birds

Eat raw or undercooked food

Hang out in crowded places, around people who are unwell
